## PICO SURE *pro* PICO SURE<sup>®</sup>

### The World's First Picosecond Laser Just Got Better

The PicoSure Pro device delivers 755nm energy in picoseconds; the delivery is so quick that it spares the skin from high thermal damage while optimally targeting unwanted pigment, wrinkles, acne scars and pores with less downtime than traditional lasers.

- 1 Zoom handpiece (2-6mm) and 4 fixed handpieces (5, 6, 8, 10mm) with adjustable fluence for customizable treatments
- Platinum Focus™ lens for unique skin revitalization with no downtime
- Flat lens for treating unwanted pigment in all skin types
- Optional 532nm and 1064nm add on for tattoo removal capabilities

### The World's First Picosecond Laser

PicoSure is the world's first picosecond aesthetic laser, widely recognized for its technology leadership, proven performance, and industry-leading body of clinical evidence. Capable of skin revitalization with virtually no downtime and all-color tattoo removal, it is a unique practice addition that will make both physicians and patients happy.

- Acne scars
- Fine lines & wrinkles
- Pigmented lesions
- Tattoo removal
- 80+ publications & podium presentations

## TEMPSURE<sup>®</sup>

### The Most Versatile RADIOFREQUENCY PLATFORM

- An expandable RF platform with unbeatable aesthetic versatility
- Gentle and comfortable treatments for you
- Treatment for any skin type any time of the year

## POTENZA™

### The New Standard in RF Microneedling with Revolutionizing Enhanced Topical Penetration

Potenza takes RF microneedling to new levels. The versatility this system provides allows you to customize treatments based on your patients' specific needs – all skin types, anywhere on the body, any time of the year.

- 4 different RF modes for shallow and deep treatments in one system
  - Monopolar, Bipolar
  - 1 & 2 MHz
- One of a kind Fusion Tip used for enhance topical penetration to maximize results
- Unique Tiger Tip™ technology semi-insulated needles to treat more tissue at multiple depths
- 10 different tips: Multi-needle arrays in various densities
- Single-needle handpiece to precisely target and improve blemishes on the skin

## SCULPSURE<sup>®</sup>

### A Smarter Way to Sculpt™

SculpSure is the world's first FDA-cleared laser treatment for non-invasive lipolysis of the abdomen, flanks, back, inner thighs, outer thighs and is now available for the submental (under the chin) area. It's designed to safely and effectively eliminate unwanted fat cells. The result is a permanent reduction in stubborn fat without surgery or downtime.

- Flat, non-suction applicator design for consistent, natural looking results
- Non-invasive customizable treatment for your patients
- Simple and efficient attachment system
- Hands-free device

## VENUS NEOGRAFT

### NeoGraft® Hair Restoration System The Trusted Hair Restoration Solution

NeoGraft® is revolutionary automated Follicular Unit Extraction (FUE) and implantation technology leaves no linear scar and minimally invasive with fast patient recovery. It eliminates the inefficiencies of common manual tools and procedures while enabling physicians to offer hair transplants with consistent clinical outcomes. NeoGraft® delivers superior clinical efficacy and high patient satisfaction, as evidenced by an average “Worth It” rating of 95% on RealSelf.com.

## VENUS VIVA MD

### The Only Skin Resurfacing System You Need

Venus Viva™ MD is a highly customizable skin resurfacing device that delivers exceptional results with low downtime and safe for all skin types. Using NanoFractional Radio Frequency (RF) with SmartScan™ technology, Venus Viva™ MD is a fractional resurfacing system that allows operator control of ablation and coagulation for enhanced efficacy in resolving mild to severe skin damage. Venus Viva™ MD allows for more possibilities and can replace all other skin resurfacing devices with one lightweight, tabletop device.

## VENUS LEGACY

### An Advanced Solution for Challenging Aesthetics

The highly advanced non-invasive medical device that effectively resolves challenging face and body aesthetic needs, such as non-surgical body contouring, cellulite reduction, skin tightening and wrinkle reduction. Treatments are comfortable with no downtime and safe for all skin types. Venus Legacy™ is powered by proprietary (MP)<sup>2</sup> technology (a combination of Multi-Polar Radio Frequency and Pulsed Electro Magnetic Fields) and features cutting-edge VariPulse™ technology.

## Dermablade®

State-of-the-Art Erbium Laser for Aesthetic Medicine

The new Dermablade® is the latest and highest-performing Er:YAG laser for high-precision skin ablation and fractional therapy. The new ultramodern system enables treatment of a wide variety of benign skin changes, folds and scars as well as many further applications in the most diverse specialist areas.

**Juliet**  
*the feminine laser*

The fast, gentle, hormone-free and minimally invasive treatment for women's intimate symptoms. Give your patients a new lease of life!

**ROMEO**  
ANTI-SNORING TREATMENT

The fast, gentle and minimally invasive treatment against snoring. Give your patients and their spouses a new lease of life!

## BodyLab

Your Way to a Perfect Body  
Lose Fat & Build Up Your Muscle  
Thanks to Neuromuscular Stimulation

Muscle Toning Using FMS Technology

The BodyLab is a body-forming system that uses innovative FMS technology (Focused Magnetic Stimulation).

The patient's muscles are stimulated with supramaximal contractions (up to 2.5 Tesla), thereby increasing the metabolism and prompting significant fat reduction.

The BodyLab works on many areas of the body and reduces localised fat deposits. Treatment with the BodyLab can significantly increase muscle size, make them more defined, and improve posture – in just a few sessions.

## MEDIOSTAR

The Completely Redeveloped, Modularly Designed Mediostar® Offers More of Everything. More Power, More Precision, More Flexibility and Better Service.

- Easier to use with a new user interface
- Two connectable handpieces to save time
- More power with new laser modules

The New Era of Handpieces Monolith

There is a complete series of newly developed handpieces for our new MeDioStar® Monolith. It's a byword for maximum stability, maximum power, intuitive operation and optimal control for faster and more effective treatments than ever before.

## Hydrafacial™ Syndeo™

Get the Best Skin of Your Life

Experience the transformative power of HydraFacial, a revolutionary skincare treatment that combines cleansing, exfoliation, extraction, hydration, and antioxidant protection.

How It's Different?

The magic is in the wand, which works like a vacuum to open pores for a deep cleanse and easy extraction of impurities and dead skin cells. It also allows the active ingredients in our boosters to penetrate deeper, for the most effective treatment possible.

**NoIR**  
PRECISION. VISION. PROTECTION.

Internationally Certified  
Laser Safety Eyewear

NoIR laser safety eyewear delivers internationally certified performance and protection for a multitude of laser applications,

affording high Optical Densities and the highest damage threshold ratings possible without sacrificing visibility. It's designed to block certain wavelengths of light while allowing others through, to enable you to perform your job safely and prevent exposure to direct, reflected, or scattered laser radiation that could harm your eyes or even blind you.

# capillus

## Capillus Laser Therapy

Capillus laser therapy caps offer a treatment for hereditary hair loss that doesn't get in the way of your busy life. Our caps are clinically proven and FDA-cleared to help you safely stop your hair loss and regrow your hair back.

**In just 6 minutes a day**

Capillus uses clinically proven low-level laser therapy to stimulate hair growth to help reverse androgenetic alopecia.

# Syris<sup>TM</sup>

Scientific

## See Below the Skin's Surface

The v900L Visualization System combines a proprietary superior white light LED with two-way polarization to enhance the vision of medical professionals during dermal inspection procedures by removing surface glare from the patient's skin promoting improved viewing of sub-surface features. Battery powered for unrestricted mobility.

# PROLLENIUM<sup>®</sup>

# REVANESSE<sup>®</sup>

### Thixofix<sup>®</sup> Technology

Promote effective cross-linking for immediate, natural and long-lasting results.

### Low BDDE Content

Optimized purification process ensures complete BDDE residue removal.

### Round & smooth HA Particles

For smoother injection experience and minimizing the inflammatory response.

# Plinest

Plinest the FIRST and ORIGINAL Polynucleotides (PN), a DNA fragment extracted from Italian Trout Fish using HPT<sup>TM</sup> technology developed and patented by Mastelli, Italy.

Not all PN are the same, only PN developed by Mastelli certified as PN-HPT<sup>TM</sup>.

## SoftFil<sup>®</sup> EasyGuide

### Pre-Hole Needle & Micro-Cannulas Kit

Discover the revolutionary SoftFil EasyGuide Microcannulas, designed to revolutionize the world of aesthetic procedures. With their innovative technology and precise control, these microcannulas provide a comfortable and efficient experience for both practitioners and patients.

## SoftFil<sup>®</sup> Precision

### The Widest Range of Micro-Cannulas

Adopted by thousands of injectors worldwide, the SoftFil<sup>®</sup> Precision micro-cannula is designed for physician comfort and patient safety. Its range of 22 sizes, the largest on the market, is designed to respond effectively to all patient needs.

Its design allows :

- An optimal pushing force
- Precise placement of the product
- A safe injection

biotec italia

# cfu-èlife

Hyperhidrosis Therapy,  
Non-Surgical Face Lift and Reduction of  
Fat Accumulations

The scientific basis from which the CFU Èlife device originates is the HIFU (high intensity focused ultrasound) technology that has been applied for years to the treatment of tumours, which uses the thermal energy created at precise focal distance by an ultrasound wave transducer. Through this innovative therapeutic approach, it is possible to stimulate the natural cellular mechanism of tissue repair and regeneration.

# FLEXSYS

FlexSys – The Medical Platform that Adapts to Your Needs

The FlexSys is a modular platform system that can be equipped with up to five different modules for the treatment of various indications. In the first step, you purchase the base station with a module of your choice. If required, you can then add further modules to the FlexSys – but due to the modular design, you only need one base station.

The FlexSys thus covers a broad treatment spectrum. Nevertheless, you do not have to make any compromises when it comes to handling, because the individual modules and applicators are all specially tailored to the respective treatment procedures.

# Cryo 7

State of the Art Cryotherapy,  
Delivering Cold Air As Low As -30°C

Cryo is the perfect system for cooling the skin during laser applications and injections of all types. The cold air device provides lasting pain reduction and prevents thermal damage to the skin during laser and IPL applications.
